EDUCATION

SNS COLLEGE OF ENGINEERING

B.Tech in Information Technology
Coimbatore, Tamil Nadu
Cum. GPA: 9.49 | Gold Medalist

ST. MICHAEL'S GIRLS HR. SEC. SCHOOL

Tenkasi, Tamil Nadu
HSC - 2019
PERCENTAGE: 80.8

SSC - 2017
PERCENTAGE: 93.8

SKILLS

LANGUAGES

Advance: Java | Python
Intermediate: SQL | Javascript

FRAMEWORKS

Angular | React | Spring Boot | FastAPI |
Django | Node.js | TypeScript | Flutter

TOOLS & CLOUD

Docker | Git | Postman | Redis |
SourceTree | Adobe XD | Azure Blob
Storage | RabbitMQ | Eureka Service
Discovery

DATABASE & SECURITY

PostgreSQL | MongoDB | MySQL | MS
SQL | Keycloak | OAuth2 | Unit Testing
| Integration Testing | Agile

ACHIEVEMENTS

B.Tech IT – Gold Medalist & Rank
Holder, 2023

Solved 400+ DSA problems –
GeeksforGeeks

IBM Cloud Project – Certified
Completion

Winner – Hackathon @ Karpagam
College

Published Research – IIIE Journal

CERTIFICATIONS

GCP – Professional Data Engineer
UI/UX Design – Coursera
Problem Solving – HackerRank
Web Development – Certified
Full Stack Intern – LITS & Gateway

EXPERIENCE

XEBIA | PRODUCT ENGINEERING | ASSOCIATE SOFTWARE ENGINEER

Jan 2024 - July 2025 | Hyderabad, Telangana

| WELL-DEFINED APPLICATION ARCHITECTURE (WEDAA)

- Built **microservices** and **RESTful APIs** for dynamic prototyping using Python and FastAPI.
- Integrated **service discovery (Eureka)** and implemented secure authentication with **Keycloak (OAuth2)**.
- Reduced application prototyping time by **30%** through reusable architecture scaffolding and standardized backend templates.
- Tech Stack: **Python, FastAPI, Docker, RabbitMQ, Keycloak, Eureka Service Discovery**
Database: **PostgreSQL, MongoDB**

| STAFFHUB MANAGEMENT SYSTEM

- Developed key modules including **Dashboard, Workflow, and Timesheet** using Angular and Node.js.
- Built **REST APIs** and implemented secure file upload/download features integrated with **Azure Blob Storage**.
- Leveraged **Redis** for performance optimization and built smart autocomplete functionality.
- Tech Stack: **Angular, Node.js, Azure Blob Storage, Redis**
Database: **Microsoft SQL**

| TRAFFIC EASE MANAGEMENT SYSTEM

- Developed multilingual UI components with **ngx-translate** to support **English and Arabic**, enabling seamless RTL and LTR layout rendering.
- Integrated **real-time updates** using WebSockets to enhance system responsiveness and user experience.
- Resolved critical **UI/UX bugs**, optimized component behavior across devices, and improved API error handling and layout consistency.
- Collaborated with the CMS team to integrate **Umbraco-managed content**, maintaining branding standards across dynamic pages.
- Tech Stack: **Angular, TypeScript, HTML/CSS, ngx-translate, WebSockets, Umbraco CMS**

XEBIA | PRODUCT ENGINEERING | ENGINEER TRAINEE

June 2023 – Dec 2023 | Hyderabad, Telangana

- Developed APIs** with Spring Boot and built frontend components using React. I gained experience in **database integration** and learned essential tools like Docker and Postman.
- Key projects included Java-based CRUD operations, a **real-time weather application**, a **vendor management CRUD application**, and a **versatile calculator application**.
- Enhanced data integration processes and utilized tools like Docker and Postman, contributing to a **15%** increase in development efficiency.
- Tech Stack: **Java, Spring Boot, React, Docker, Postman** Database: **PostgreSQL**
